HYDROSPORTS [STAND UP PADDLING] [KAYAKING]

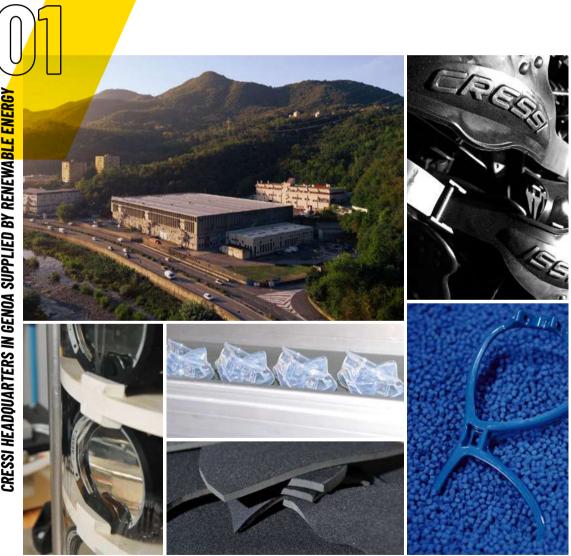

BY THE SEA (BEACH ACCESSORIES & EQUIPMENT)

Cressi was founded, and still lives, just steps from the sea in Genoa. We breathe sea air in everything we do, and every one of our products is inspired by the incredible beauty of the waters we see before us.

The only way to fight pollution in the sea is to be aware and active, first hand.

Cressi decided to take some concrete actions

Cressi is proud to announce that its Genoa factory is operating with 100% renewable energy. Alternative and renewable energy sources are crucial for the environmental health of the world's seas and for our future. The only way to fight ocean pollution and to conserve the beauty and health of the planet's oceans is to be aware and proactive. At Cressi, we decided to take action: 100% of the energy used in our Genoa factory is clean and completely green.

We live by the sea, we work with the sea and we love the sea, so it's our responsibility to give it care and respect. Our goal is to replace all plastic packaging with alternative sustainable solutions following our policy.

CRESSI

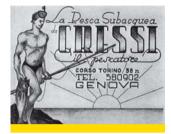

ACKAGING

6 In Cressi we have always focused on sustainability by orienting ourselves to the protection of the environment and especially of our seas. In 2019 our Headquarters has changed: Production and Offices are powered by renewable energy and today we can proudly say that our establishment is zero impact. We follow the sustainable direction on many fronts, such as in the choice of packaging materials, where we are reducing plastic and replacing it with recycled or recyclable materials. We are also very active in sponsoring events related to cleaning up the seas to ensure that future generations have our same opportunities."

BRAND SUPPORT FOR SHOP AND EVENTS

NANNI CRESSI

Diving, Snorkeling and Water Sports are not 3%, 5% or 10% of our business. They are 100% of our business. We are focused only on water related sports.

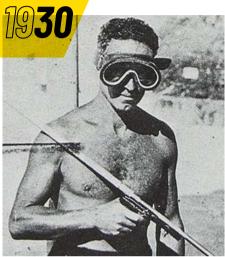

We have been doing this, in the bay of Portofino, since 1946 and **this is what makes Cressi different.**

SINCE 1946

/ HISTORY

WE ARE FAMILY

Pinochia Pin

Pinocchio Mask, which makes equalization

possible. It is a major innovation in the

early'50s. It is the most famous and most

sold mask in the world's history, and it is

ma la "RONDINE,, è la "RONDINE,

Rondine Fins - Also in the field of fins,

still included in the catalogue.

anni-nul

PLA

1938 Brothers Egidio and Nanni Cressi start to handcraft the first masks and spearfishing guns. These are the origins of Cressi, the oldest scuba diving equipment company worldwide.

1943

The first Cressi mask, The Sirena, was hand crafted in 1943. It remained in the catalogue, with various updates, for more than 30 years.

1946

The Cressi company is officially founded in Genova, Italy.

1947

In 1947 the first oxygen rebreather was produced; Aro AR47. It was already highly advanced and fitted with sophisticated technical solutions, like the condensation receptacle.

CRESSI HYDROSPORTS - BY THE SEA 2023

1970

Equi-vest - In 1970, Cressi was the first manufacturer in the world to produce Equi-Vest, a futuristic jacket that became one with the scuba tank, supplied by a hose that drew air directly from the first stage. This was the first incarnation of the modern BC.

1970

Rondine L long fins - The world leader of molding rubber fins, Cressi developed the Rondine L long fins, which enabled Jacques Mayol to go onto achieve his astonishing freediving records.

1979

Fins range - Alongside the various rubber fin models, a futuristic model was presented with a reinforced nylon blade, called the Rondine Gara, a fin that thirty years down the line is still going strong, and has been adopted by world class freedivers and spearfishermen the world over.

1953

1952

Cressi opened one of the first workshops that specialized in producing optical masks. Thanks to Cressi, even people with visual defects could now get full enjoyment of the underwater universe.

1983

Jacques Mayol, the first man in the world to challenge the 100m barrier. He reached a depth of 105 meters. The episode has gone down in history, the record was obtained in the waters of the island of Elba in 1983.

1988

Apache Arbalète - Cressi produced a complete range of Arbalete spearguns to join the pneumatic guns, called the Apache, which very soon became the Champion speargun in the world.

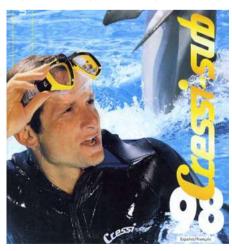

1989

Cressi athlete Renzo Mazzarri wins the spearfishing world title in Italy.

1990

Cressi continues its international expansion and the products are by now distributed in over 90 countries world wide.

1999

Cressi Athlete Umberto Pelizzari sets the freediving "No Limits Absolute Variable Weight" World Record in Portofino (Italy) reaching the depth of 150 meters.

2000

Big Eyes was the first mask in the world

with raked lenses in an upside-down teardrop shape, an innovative form that gives the diver a complete view of all the equipment worn. They became the most widely copied and imitated mask in the world, a gratifying appreciation of how far ahead Cressi is in the design of its products.

2011

The Leonardo dive computer watch is introduced, the first of the products designed in-house by Cressi Elettronica in order to quarantee optimum quality, safety and reliability.

2013

The French freediving champion Guillaume Néry becomes a Cressi product endorser. The Giotto dive computer watch is introduced; it processes the data from repeat multi-day dives and dives with gas mixtures and also benefits from the Cressi RGBM algorithm. The Tracina wetsuit for spearfishing is introduced in a new and exclusive camouflage Dark Digital Specter Pat Cressi.

2021

Hydrosports is the result of Cressi's experience, consisting of tradition, innovation and quality, since 1946. With its close relationship to the sea environment, the Cressi team has been able to develop this new collection in response to the direct needs it encountered in practice and through water tests on its products.

The Cressi company is still entirely owned by the Cressi family, which carries on with the same passion, the work started by brothers Nanni and Egidio Cressi. Its spirit lies in the manufacturing tradition, with a clear preference for the conception and realization of its products in-house, from the initial design through to the smallest details. Cressi focuses on those who love all facets of the aquatic world. The company has never exaggerated with successful products on the market, but has instead always invested in research and development to the benefit of quality and reliability, the evolution of materials.

OUR NUMBERS

75 YEARS OF EXPERIENCE 8 BRANCHES AROUND THE WORLD SALES IN 100 COUNTRIES WORLDWIDE 1000 PATENTS M TIME SPEARFISHING WORLD CHAMPION 7.000 REFERENCES UNIQUE STYLE

' TERRITORY

LIGURIA. OUR LAND, OUR SEA

It was to fish in the depths of Portofino and San Fruttuoso that, just before the Second World War, a group of friends thought of new equipment. Situated between the French border and Tuscany, Liguria is one of the smallest regions in Italy. The Italian riviera is reflected in the blue Mediterranean Sea, but is also surrounded by mountains that drop sheer into the sea. Vegetation forms the backdrop to some of the country's most popular and well-known seaside resorts. The coasts are generally high, rocky, jagged, especially in the Riviera di Levante, while in the Ponente there is an almost perfect alternation between sheer cliffs and sandy beaches.

It couldn't be any other way, the strong passion for the sea finds its place in a unique setting with depths to explore.

"THE SEA IN LIGURIA, ESPECIALLY AROUND THE PORTOFINO PROMONTORY, IS EXTRAORDINARILY BEAUTIFUL AND, WHAT'S MORE, ACCESSIBLE WITHOUT TOO MANY PROBLEMS. THIS HAS PLAYED AN IMPORTANT ROLE IN THE BIRTH AND GROWTH OF A DIVING EQUIPMENT CENTRE IN THESE PARTS."

Antonio Cressi

/ HEADQUARTERS

" I'M PROUD TO HAVE ALWAYS MANUFACTURED OUR MOST STRATEGIC PRODUCTS AT OUR HEADQUARTERS IN GENOVA, ITALY."

ANTONIO CRESSI

THE CRESSI HEADQUARTERS

In 1989, the company was enlarged, moving it to Via Adamoli, along the Bisagno valley in Genoa. And then came the electronics department. Since 2008 we have created a research and development department for this sector and so we produce directly the many control instruments that are now used during diving. With 150 employees and seven branches, Cressi is a world leader in the production of diving equipment, innovation, and development with exports accounting for 80% of turnover.

BUT THE ONLY ONE STILL RUN BY A FAMILY

WHERE

Our headquarters is based in Genoa, and we also have eight branches: USA, Mexico, Brazil, France, Spain, China, Thailand and Australia. 70% of our products are made in Italy in our own factory, in Genoa. 10% of our products are made in our own production facility in Hungary and the remaining 20% is sourced from selected high-quality suppliers from Asia.

WORLDWIDE

We have around 10,000 shops all over the world, and our products are sold in over 100 countries.

CRESSI AUSTRALIA *Cressi Australia* 64 Edison Crescent, Baringa Queensland Australia, 4551 marketing@cressi.com.au **CRESSI HYDROSPORTS - BY THE SEA** 2023 COLLECTION

Cressi is pleased to announce a great novelty within the 2023 collection. Considering that the Hydrosports and By the Sea catalogs present complementary product families, Cressi has decided for the 2023 collection to merge the two catalogs into a single collection called (for this first year) Hydrosports - By the Sea. This catalog contains all the products that you can use in your activities on the surface of the water or on the beach.

Hydrosports is the result of Cressi's experience, consisting of tradition, innovation and quality, since 1946.

Today, with this new line of products, Cressi seeks to bring its passion above the surface of the sea too.

With its close relationship to this environment, the Cressi team has been able to develop this new collection in response to the direct needs it encountered in practice and through water tests on its products.

The By the Sea collection comes from Cressi: tradition, innovation and quality. We are a family owned company that creates premium water sports products for people that love the water and the sea. Our goal is to create the highest quality products, and our family's name is molded into every product that we make. Today thanks to this collection we can bring the quality of Cressi in our everyday life.

Start exploring with Cressi Hydrosports - By the Sea.

INTERNATIONAL WARRANTY POLICY

In accordance with Directive 1999/44 EC, Cressi guarantees its products against inherent and operating defects. To offer better service to its customers and consumers, and to affirm the efficiency and quality of its manufacturing processes, it has decided to extend the terms of the guarantee as follows:

INFLATABLE SUP, INFLATABLE KAYAK

The warranty is valid for two (2) years from the time of purchase, and is issued solely to the original consumer.

Exceptions: Normal wear resulting from use of the product, negligence and/or improper use, damage after sale incidental to use such as tears, scratches, and holes, modifications, repairs, or disassembly not authorized by Cressi and its delegated personnel, a failure to respect and observe all of the instructions provided in the manual.

BUOYANCY AID 50N

The warranty is valid for two (2) years from the time of purchase, and is issued solely to the original consumer.

Exceptions: normal wear resulting from use of the product; negligence and/or improper use; damage after sale incidental to use such as tears, scratches, and holes; modifications, repairs, or disassembly not authorized by Cressi and delegated personnel; or failure to abide by all the instructions provided in the manual.

CRESSI

MASKS, FINS, GOGGLES

Two (2) years from the date of purchase (for rental or teaching use: 12 months for good operations and 24 months for defects of conformity). Exceptions: Alterations in the color of the silicone, all damage due to exposure to the sun or the effect of chemical or environmental agents, damage due to negligence, improper use, blows, or normal wear and tear.

BAGS, WETSUITS, BOOTS, GLOVES, AND ALL REMAINING PRODUCTS AND CONSUMABLE PARTS

Two (2) years from the date of purchase (24 months for inherent flaws). Exceptions: Damage due to scratches, punctures, abrasions, or chemical products (including chlorine), all damage due to exposure to the sun, damage due to negligence, blows, or normal wear and tear.

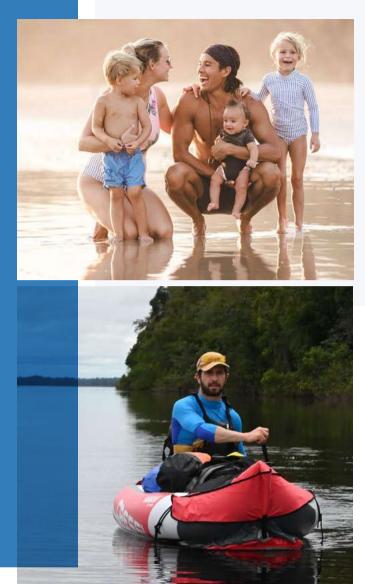

CRESSI

A hi-tech product range for our professional retailers, that can be sold online only through the own website of a Cressi authorized retailer. This range therefore cannot be sold on marketplaces, e-procurement platforms or any third party website.

IGOR D'INDIA Adventure Filmmaker

Italy

Igor has been able to combine his passion for outdoor adventure and marine conservation with his training in underwater filmmaking, camera drone pilot operation and advanced open water diving to document the stories of extreme sports athletes and outdoor brands. He is deeply committed to participating in the global community of conservationists who are fighting to protect the ocean.

(O) igordindia

LUCA DELLA SANTA Professional Paddle Board Instructor

Fort Lauderdale, FL

I was raised on the beaches of North Carolina and South Florida, where my love for the ocean began. Growing up, I was fishing, diving, or surfing any chance I could get. I became a paddle board instructor in college and began to take people on paddle board tours. Since then, I have continued to use my knowledge, and passion to help teach and grow the paddle boarding industry in the best way possible.

THE BUCKET LIST FAMILY

Family Travel Journalists Worldwide

CRESSI HYDROSPORTS - BY THE SEA 2023

The Gee family, just a typical family working from all over the world as Family Travel Journalists! Their story began on August 15, 2015, when they decided to sell everything and leave home for a trip around the world together. They started an Instagram and YouTube channel called, The Bucket List Family. It was a difficult decision to reset their lives and sell everything, but they are thankful every day that they took that chance and were brave. They hope that their little family and this big adventure continues to grow!

GIULIA GABBRIELLESCHI Open water swimmer

Open water swimr Italy

Giulia Gabbrielleschi is an Italian swimmer, specialising in open water swimming. At the World Championships, she won a silver medal (Gwangju 2019) and a bronze medal (Budapest 2017) in the 5 km team event. The challenges continue and year after year she brings home excellent results.

FRANCESCO MAGISTRALI

Explorer, Educator, Horizon Chaser Italy

Francesco is the creator of the Beyond Exploration brand. His family, his friends and his collaborators are all part of this team. In the name of Beyond Exploration's mission itself, Francesco's gaze is always turned towards the future. In his past thousands of formative and educational experiences, from the more conventional to the most alternative ones. In his present – and in that of his team – adventure, travel and exploration are the means to deeply know the world, the Mystery and Humanity.

O beyond.exploration

LUCA TIXI Professional Kayak & SUP instructor Italy

I was born and raised in Recco, at the gates of the Portofino Park (Liguria). I remember spending my childhood among the trails of the park and the coasts of its marine reserve: the most spectacular playground that a kid can desire! At the time of high school, in a period of environmental militancy and hermitage on the Portofino mountain, the enlightenment arrives: I understand that my job will be to bring people into nature! At the age of 17 I became a kayak instructor and after graduating in Marine Environmental Sciences at the University of Genoa, I founded Outdoor Portofino.

O outdoorportofino

PRO RECCO WATERPOLO 1913 Waterpolo team

Waterpole Italy

Pro Recco Waterpolo 1913, known more simply as Pro Recco, is a water polo club from Recco and is to this day the most successful team in the world. A partnership between two worlds that merge into the sea. We are delighted to be working alongside the world's most successful water polo team, reigning European champions, for the entire 2021/2022 season. A natural feeling based on common values: the sea as an indissoluble link in the history of both brands, the symbiotic relationship with Liguria, the sacrifice and the constant search for innovation to win the daily challenges.

ELEMENT All round isup set

Minimalism and pure lines, combined with the quality of Cressi DWF technology, give rise to a classic, no-frills inflatable SUP for paddling purists. The All Round shape, with rounded nose and flat tail, provides great maneuverability and stability. The nose rocker (curved bow) improves buoyancy by preventing the tip of the board from plunging into choppy waters, making Element perfect for sea use. The large diamond-patterned pad offers a spacious walkable area and optimal grip, even when barefoot in the water.

Element is a ready-to-use set, easy to inflate (in under 10 minutes), carry and store thanks to the practical backpack supplied: a space-saving solution equipped with all the accessories you need to go stand-up paddleboarding with peace of mind. Available in different sizes, it's suitable for all levels of experience and build.

CRE

Element boards are made with Cressi DWF (Double Wall Fabric) technology, an airtight multilayer (1) material whose internal fibers (2) give it a perfectly flat and rigid surface once inflated. The double-layer rail (3) with variable thickness guarantees excellent performance during use but is easy to roll up, for a board that's durable and easy to use.

HYDROSPORTS - BY THE SEA 2023

READY-TO-USE 0 SET T

OUR LIGHTEST AND MOST TRAVEL FOCUSED SUP HIGH LIGHTNESS LOW VOLUME AND PORTABILITY BACKPACK

TRAVELIGHT FOLDABLE 9'2" ISUP SET

Easy to transport, light and compact: Travelight is the Cressi Hydrosports SUP that's ideal for travelers. The special pad design of the SUP enables it to be folded longitudinally then rolled up, thereby occupying half the space of an inflatable SUP of the same size. Travelight is made with Cressi LWF technology, our lightest and strongest construction in the Inflatable category, which minimizes its weight without affecting

performance.

The All Round shape makes the board highly versatile and manageable for different levels of experience and build.

The set is complemented by similarly compact accessories designed ad hoc, including the small Feather pump and the MOD5 modular paddle, which lets you transport the entire set in the TERA backpack, only 50 cm tall.

TECHNICAL FEATURES

REEF WINDOW 10'2" ISUP SET

The full snorkeling experience from above the surface: a new perspective for encountering and observing the underwater environment with maximum respect. This is Reef, the new Cressi Window ISUP with the biggest window yet. The large 34* 'fish' shape coupled with the prelaminated material have enabled us to design an

elongated window that extends from the paddling position to the bow, and thanks to the sturdy layer of Crystal Clear PVC, Reef's window offers an exceptional view of the seabed during your outing. The high buoyancy, curved bow and generous 9" drift give the board great stability, to let you comfortably admire the sea wherever you go.

FLUID E SPECIALIZED Retailer-Product ALL ROUND 10'2" ISUP SET

Our most versatile, safe and performing board in all aquatic conditions and activities, suitable for learners as well as the most experienced, ideal for sea excursions in calm or choppy waters, through to yoga and fitness.

Thanks to Cressi Double Chamber PLF technology, this inflatable board also combines exceptional structural stiffness with the safety of a second integrated air chamber.

Stable and maneuverable thanks to its generous thickness (15 cm) and wide width (81 cm), Fluid is the ideal SUP to ensure maximum fun at all times. Equipped with an 8" fin

to increase maneuverability, the classic All Round shape with a rounded and curved bow transmits a linear and gentle feeling of paddling. The diamond-patterned pad always ensures a firm

grip, even with bare feet in wet conditions.

Fluid is a set complete with all the accessories you need to practice, and thanks to the supplied pump it inflates in under 10 minutes.

TIGER SHARK

Can the pleasure of stand-up paddleboarding be combined with a passion for spearfishing and freediving? Tiger Shark was born from this question and is

Tiger Shark was born from this question and is designed to offer new possibilities for enjoying these activities.

The large and spacious 'fish' shape is ideal for providing stability onboard when preparing and setting up the equipment.

Thanks to Cressi Storage Hatch PLF technology, this board makes it easy to transport equipment, with a large and practical locker in the bow equipped with a cover mesh pocket for storing

SPECIALIZED Retailer-Product

CRESSI HYDROSPORTS - BY THE SEA 2023

items like ropes, fins or the catch itself. The supplied adjustable strap with D-Ring can be passed under the board to connect the ascent line during diving and stored while paddling, so as not to affect hydrodynamic performance. The bow is equipped with a base and shaft with a diving flag, while the D-Rings are equipped with adjustable elastic bands to attach spearguns and rods to the side hooks, so as not to take up space onboard and always offer a view of the equipment. The practical bungee elastic cords are positioned at the stern to provide an additional cargo area.

HYDRODYNAMIC SPEAR SHAPE DOUBLE CHAMBER MAX SAFETY ISUP BOARD HIGH STIFFNESS

22 SEARS WARRANTY SS READY-TO-USE SET

JET & SPECIALIZED Retailer-Product CRUISE 11'2" ISUP SET

Jet is the Cressi Hydrosports ISUP designed for cruising (medium and long time paddling activities). His "spear" shape combined to the 11'2" lenght gives to the board a great hydrodinamic performance keeping at the same time a good roll stability thanks to the 30" width and the US 9" fin supplied. The board profile has a nose rocker to improove floating on the sea waves and ripples, avoding the bow sinking.

Jet is made with Cressi double chamber technology that guarantee floating in case of accidental punctures then a better maritine safety; the inner "core" chamber also gives at the board, a great stiffness that enhance paddling thrust.

READY-TO-USE SET

FURY E SPECIALIZED **TOURING 12'2" ISUP SET**

Fury is the ISUP from Cressi Hydrosports dedicated to touring. The hydrodynamic and elongated to touring. The hydrodynamic and elongated shape, coupled with the very light Carbon paddle supplied, make this set the best one for lengthy paddleboarding sessions. The curved bow (nose rocker) improves its buoyancy in the sea, preventing the tip from

sinking into the ripples of the waves, while creating hydrodynamic resistance.

The Cressi Double Chamber PLF technology maintains a highly performing structural stiffness while paddling, despite the board's length of over 12 feet, and the double air chamber guarantees greater safety in case of accidental punctures. The large 9" drift positioned far from the center of gravity helps maintain a linear trajectory even at low speeds, providing an advantage over long distances.

Solid is the Cressi Hydrosports SUP family designed specifically for professional rental.

The use of Double Chamber Reinforced PLF technology and triple-layer anti-abrasion rail (the most resistant and robust composition in the whole collection) guarantee maximum structural stiffness and great safety during sessions at sea.

The board is available in the All Round version with one seat and Tandem with two seats. Due to their intended professional use, the two versions of Solid have features designed to improve the experience of both the boards' end users and those who rent them. Numerous D-rings and handles are positioned along Solid's structure to facilitate hooking and transport.

Furthermore, each side features special dedicated HIN (Hull Identification Number) spaces for customized numbering by the rental center.

The US Click 9" fins supplied have a quick coupling and release system, with a variableintensity locking system. Each board will be accompanied by a Trailer

Leash, a reinforced elastic rope with double S-shape carabiner, useful for towing and mooring.

Solid is equipped with US Quick Skeg Fin 9" with fast locking system:

Solid has 5 practical handles to facilitate transport and storage

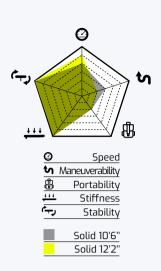

Thanks to the Trailer Leash supplied, it will be possible to easily and quickly connect the boards through the D-Rings positioned at the bow and stern, so as to be able to keep all the boards under control during each tours.

NAMAKA IKAYAK SET

Namaka is the Cressi kayak created to explore the coasts and nature, to move silently and reach places inaccessible by sailing or swimming, with zero emissions and the utmost respect for the marine environment.

Available in two versions, single or double seat, Namaka is an inflatable kayak with excellent stability thanks to its air chambers with tubular sections, which are ideal for following the waves. Comfort is ensured by the inflatable seats that provide a raised paddling position, while the velcro strips and adjustable straps allow the lumbar support to be moved and adapted along the entire cockpit. Namaka is equipped with nylon linings at the bow and stern with splash guards, practical bungee cords, handles to help carry it out of the

RODUC

PADDLES SUP & KAYAK

Lightness, strength and versatility: these are the key values our collection of paddles seeks to offer. Our designs are created to meet the specific needs of those who go stand-up paddleboarding and kayaking, with a focus on inflatable products and portability.

For this reason, the choice of materials is directed only towards those with high levels of corrosion resistance, lightness, and elasticity such as aluminum, nylon and carbon fiber.

Behind the apparent simplicity hides great attention to detail, aimed at improving performance and usability.

Highlights include: the one-hand height adjustment mechanism, the floating capacity and an easy assembly system.

Finally, modularity is what unites all our paddles, to ensure easy transport and storage within the sets they are supplied in.

2000 CC HAND PUMP

Welter is the largest capacity Cressi Hydrosports pump. With a volume of 2000 cc, it can inflate a 300 l board in under 10 minutes.

The mechanical selector can be used to set the pump to double or single action, to reduce fatigue when inflating at high pressures.

Equipped with a deflation function, pressure gauge and multiple bayonet connections, it's compatible with all Cressi Hydrosports SUPs and kayaks. Its foldable pedestal and unscrewable handles make Welter compact and easy to store in a backpack.

ELASTIC WATER SOCKS FOOT PROTECTION

Elastic Water boots are practical elastic booties for generic water use. Thanks to the thin fabric, they guarantee protection and comfort for trips to the shore, on boats, or for any recreational activities, including swimming, water aerobics, and snorkeling.

- Quick drying material
 Allow you wearing your fins for hours an more without chafing your feet
 Ideal for swimming With fins, jogging, cycling and other activities
- and other activities
- · Complete foot Protection, adds comfort and prevents blisters and chafing

ARMOR RASHGUARD SLIM-FIT SHORTS

Cressi Armor are designed for all water sports. The composition of the fabric enables the clothes to dry very quickly and provide protection from harmful UV rays.

The elasticity of these rash guards and the flat seams offer complete comfort during movement, while maintaining excellent resistance to any abrasions caused by rubbing in the water.

DUKE Adult Silicone Full Face Mask

Full-face mask for snorkeling: Designed with extremely high-quality materials and technology. You can explore the world underwater, breathing naturally through the nose and mouth with 0% effort. Its visual field is 30% larger than normal full face masks. The new air baffle completely eliminates fogging. It features special safety valves for purging water. The snorkel features a special dry system that keeps water out.

Cressi Duke boasts a visual field that is 30% larger than normal full face masks
The new baffle that Cressi has created optimizes air circulation, completely eliminating the fogging effect
Special safety valves allow you to easily purge water
Ample front area lets you breathe naturally through your nose and mouth with 0% effort
The snorkel features a special Dry System that keeps water out of the tube
Cressi Duke is made using extremely high quality materials and technology. Cressi provides a convenient carrying bag
Available in S/M and M/L. To check the correct size, use a ruler to measure from the chin to the eye line
Cressi Duke is the evolution of the first full face mask ever produced, called the Medusa, made in 1946

TECHNICAL FEATURES

Water resistance	100 m / 10 atm
Features	 Time-keeper and undirectional bezel Screw down crown waterproof Mineral glass Soft, extra-large rubber strap Indicates hours, minutes, seconds, and date Silent

During a dive, if you position the bezel point at the minute of the dive, you can check the time sequence of decompressions and the dive time available as dictated by the air in the cylinders. Counter-clockwise micro-increments of one minute.

The Cressi Manta case is made of rugged stainless steel and is 13 mm thick. The bottom is ultra-flat, and is also steel. The screw closure is hermetic. Colours may vary according to model.

The ample clock face with the hours in fluorescent paint is topped with a solid, unidirectional time-keeper bezel that can also be calibrated when wearing gloves. Fluorescence proves essential in the darkness of deep dives.

CRESSI LENSES TECHNOLOGY

HTC TREATMENT

The HTC treatment that Cressi has perfected protects the lenses from dirt and is waterrepellent. It combines the benefits of multilayer anti-reflective treatments with the hardening treatment. This is the best treatment that Cressi Sunglasses has ever produced on sunglass lenses. Thanks to the protective HTC (Hydrophobic Tech Coating) treatment, droplets of water slide from the surfaces, leaving them free of streaks and dirt. This protection makes the lenses more durable and long-lasting, for sharp and defined vision. The HTC layer helps the lens stay resistant to dirt, and makes it super smooth and easy to clean. **STANDARD LENSES**

/ SUNGLASSES

BLAZE POLARIZED AND HYDROFOBIC SUNGLASSES

Thanks to the protective HTC (Hydrophobic Tech Coating) treatment, droplets of water slide from the surfaces, leaving them free of streaks and dirt. This protection makes the lenses more durable and long-lasting, for sharp and defined vision. The HTC layer helps the lens stay resistant to dirt, and makes it super smooth and easy to clean. Cressi sunglasses have superior optical quality; they block reflections and protect against UV rays. They offer sharp vision that is rich in detail and increases contrast, protecting the eyes from harmful rays. This combination improves comfort and decreases eye fatigue. The polarizing filter in the Cressi sunglasses guarantees sharp vision free of reflections and glare. Cressi polarized sunglasses block harmful sunlight reflected from horizontal surfaces, such as water or a road surface, while allowing vertical light to reach the eye. Vertical light is important for human eyes and improves vision.

CRESSI

Ninja sunglasses have been specially designed by CRESSI to protect your eyesight in the proximity of water. Cressi Ninja solar filters ensure 100% protection from UV rays, block dazzling reflections and glare, making for ultra clear, well-contrasted vision. Thanks to the WRH treatment that makes them water-repellent and hydrophobic, the lenses remain clean at all times, yet another feature that

makes these glasses indispensable when boating or sailing. The antireflection treatment also comes in handy when driving, in that it drastically reduces reflection from the asphalt and improves vision. Highly appreciated in the traditional version with black temples, they are now proposed in a mimetic version, renewing the success that made them famous.

LIGHTWEIGHT SOFT FABRIC QUICK DRYING

PORTOFINO **FLIP-FLOP**

As the name suggests, Portofino is a popular, well known and fashionable village of the Ligurian Coast (Riviera). It rises in a sheltered bay in the Gulf of Tigullio, where the untouched nature is combined

with this simple fishing village and its alleys with colorful narrow houses, one built over the other. These flip-flops are the expression of a similar quite elegance.

TECHNICAL FEATURES

- The strap material is very comfortable even between the toes: it doen't rub or scrape, as it is made of soft fabric
- Multilayered, ergonomic footbed, with a deepened stamped antislip inscription
- \cdot Very comfortable flip-flops for adults. Really functional shoes for wet, uneven ground and sand
- Very light, therefore ideal for sports and travel luggage
 Quick-drying and washable material
 Classic and casual flip-flops, ideal for beach and near flip-flops, ideal for beach
- and pool
- Very robust and soft antislip sole
